THE STATE OF NEW HAMPSHIRE

TOWN WARRANT

To the Inhabitants of the Town of Carroll, in the County of Coos, and State of New Hampshire, qualified to vote in town affairs:

You are hereby notified to meet at the Town Hall in said Town, on Tuesday, the 13th day of March, next, at ten o'clock in the forenoon, to act upon the following subjects:

1. To elect all necessary town officers.
2. To raise and appropriate such sums as may be necessary for:
 - a. Town Officers Salaries
 - b. Town Officers' Expenses
 - c. Election and Registration Expense
 - d. Expenses Town Hall and Other Buildings
 - e. Police Department
 - f. Fire Department
 - g. Health Department — Town Dump
 - h. Vital Statistics
 - i. Auto Permit Fees
 - j. Highways and Bridges
 1. Road Maintenance — Summer
 2. Road Maintenance — Winter
 3. General Expenses of Highway Department
 4. Sidewalk Construction and Repairs
 5. Town Road Aid, Class 5
 - k. Street Lighting
 - l. Libraries
 - m. Town Poor, Old Age Assistance, Child Welfare and County Poor
 - n. Advertising
 - o. Memorial Day and Honor Roll
 - p. Cemeteries
 - q. Legal Expenses
 - r. Dog Costs
 - s. Moth and Blister Rust Extermination and Ragweed
 - t. Insurance
 - u. Interest and Loans
 - v. Printing Town Reports
 - w. Payment on Long Term Notes
 - x. Reappraisal of Property
 - y. Civil Defense
 - z. County Tax

3. To see if the Town will authorize the Selectmen to borrow money by temporary loans in anticipation of taxes.

4. To see if the Town will authorize the Selectmen to administer or dispose of any real estate acquired by the Town through Collector's deeds or otherwise.

5. To raise and appropriate to the White Mountains Regional Association for its program of Advertising, etc., as a part of the cooperative investment by Regional Towns, an amount equal to \$.10 per \$1,000.00 for the assessed valuation for 1962.

6. To see if the Town will vote to raise the sum of \$2,500.00 to be used by the Board of Trade for advertising and to raise and appropriate money for same.

7. To see if the Town will vote to raise and appropriate the sum of \$2,800.00 to pay the balance of the note due the Whitefield Savings Bank for the erection of the bathhouse at the Twin Mountain Recreation Area.

8. To see if the Town will vote to raise and appropriate the sum of \$400.00 to help to maintain and develop the Twin Mountain Recreation Area.

9. To see if the Town will vote to accept the roadway leading to the Twin Mountain Recreation Area and to raise and appropriate the sum of \$15.00 to cover the expenses of accepting this roadway from the present landowner.

10. To see if the Town will vote to appoint a committee to prepare a code of ordinances, plumbing, electrical and building, with the report to be submitted at the next Town Meeting.

11. To see if the Town will vote to raise and appropriate the sum of \$616.75 for reappraisal of property by the State Tax Commission.

12. To see if the Town of Carroll will vote to accept the elected Road Agent as Superintendent of Public Works on a 2 year full time salaried basis at \$4,160.00 per year.

13. To see if the Town of Carroll will vote to raise and appropriate the sum of \$19,000.00 to purchase a Town truck, with snow plow and tarpaulin, and to construct a 40 ft. by 40 ft. addition to the present fire station to house said truck and to house additional fire equipment and water works material.

14. To see if the Town will vote to raise and appropriate the sum of \$5,000.00 for the installation of Chlorination equipment in both the Little River and Cherry Mountain water supplies.

15. To transact any other business that may legally come before this meeting.

Given unto our hands and seal of the Town of Carroll this 15th day of February 1962.

PHILIP F. McKENNA

LEO T. MONAHAN

WILLIAM J. McGEE

Selectmen of Carroll

SUPERINTENDENTS'S REPORT

The following is from House Bill No. 354 which is now a law:

"Any public water supply system serving 30 or more consumers (each family, tenement, store or other establishment being considered a single consumer) which system utilizes any of the surface waters of the state, as defined in RSA 149, as the source of supply, shall, as a minimum means of treatment, be provided with suitable chlorination or other disinfection facilities installed, operated and maintained in accordance with regulations of the state board of health promulgated hereunder."

These are excerpts from letters to Carroll Water Commissioners from the State Board of Health:

"It is no longer optional but mandatory that this or other suitable means of disinfection be installed and operated in accordance with State Board of Health requirements."

"The Board of Health recognizes that funds are usually appropriated at the regular annual town meeting so compliance will not be required until after the March 1962 meeting. It is reasonable to expect that the completed installation can be in operation no later than June 1962."

We remind you that only the water commissioners are authorized to turn water service on or off. Anyone who either does this himself or permits another to do it, causing damage, will be liable for cost of repair to the service. The water services are Carroll Water Works property.

Attention is also called to the extracts from rules which is printed on every water bill with special emphasis on the fact that water is liable to be shut off for non-payment of bills.

Respectfully submitted,
OVILA LEDOUX,
Superintendent

Health Report

New Hampshire State Department of Health

December 28, 1961

Irvan W. Johnson, Town Clerk
Carroll, N. H.

To the Citizens of the Town of Carroll:

During the year 1961, 225 visits were made to the town. These visits were as follows:

Adults	18	Mumps	5
Antepartum	6	Polio Clinic	1
Cardiac	15	Pre-school	85
Clothing	3	Regard Polio	5
Crippled Children's Serv.	13	Regard Triple	1
Diabetes	3	Sight Conservation	8
Infants	10	School	9
Measles	8	Communicable Disease	33
Mental Hygiene	1	Well Child Conference	1

One Polio Clinic was held during the year with 30 immunizations given as follows:

Ages	First	Third	Fourth	Total
1-5			3	3
5-19		1	5	6
20			21	21

Three children started and finished the Triple Toxoid series in Whitefield at clinics held there in the Spring.

Thirty children were given physical examinations in the school in January and 34 were examined in November.

On child attended the Cardiac Clinic in Lancaster in July, and one child has attended the Orthopedic Clinic in Berlin, and one child was evaluated at the Pediatric Clinic in Littleton.

At the Well Child Conference in May, seven preschool children were examined, seven children received Triple Toxoid Boosters, and three children were vaccinated.

First Aid Classes were held at the School in the Spring, and 19 adults completed the Standard Course, and we hope in the Spring of 1962 to have an Advanced Course.

I would like to take this opportunity to express my appreciation to the P.T.A. members who helped to start a Dental

Program this year, and I hope they can continue it on a yearly basis now, as it is a health need in your community.

It has been a pleasure to work with the Citizens of Carroll and I would like to thank them for their cooperation.

Respectfully submitted,
ELEANOR D. KENNEY, R. N.
Public Health Nurse, District No. 2
N. H. State Dept. of Health

66.6.66

Board of Trade

To the Taxpayers and Voters of the Town of Carroll:

As one of the sponsors of Article 12 that will be in the warrant on town meeting day, and after carefully analyzing and investigating the absolute need for these issues, I urge your consideration and a positive vote for its passage at this meeting, BECAUSE—

1. The town is in dire need of a Superintendent of Public Works.

2. The town needs its own truck and equipment.

3. The need of housing facilities for same as well as storage requirements for the water department's materials (all under one roof).

4. To safeguard your tax rate.

5. To give an urgent town need (garbage collection) weekly to home owners.

6. To give you needed sidewalk repairs and general maintenance requirements.

7. To keep all roadways clear of snow in Winter which affords better fire protection in the event of same.

8. To reduce the overall costs of miscellaneous work needed by the town both Winter and Summer as well as control maintenance requirements through your selectmen.

9. To give steady employment to a town resident.

10. Your town expenditures and budget will be reduced in due time through the passage of this vital town necessity and improvement as well as help induce new business ventures.

R. E. LIEVENDAG
(Taxpayer)

Twin Mountain, N. H.
January 15, 1962

To the Citizens of the Town of Carroll:

Below is a summary of the income and expenses of the Twin Mountain Lake, owned by the Town of Carroll, but supported by the Board of Trade.

Income	
Receipts at Gate	\$335.00
Donations	23.00
	<hr/>
	\$358.00

Expenses

Salaries of attendants	\$388.00
Life preservers	34.46
First Aid Kit	2.95
Padlocks, rakes, etc.	5.09
Social Security	24.00

\$454.50

Attendance: 3500 Locals (Free Admission)
1500 Persons paying

In addition to operating the Lake Area, the Board of Trade paid \$300 to the Whitefield Savings Bank on the note for the bathhouse, plus \$180 interest.

Under the financial statement for the Town are given the expenditures for advertising in the amount of \$2500 appropriated by the Town. Beyond this, the Board of Trade, through its fund-raising campaigns, paid for the cost and mailing of more than 10,000 folders.

It is hoped that the citizens of the Town of Carroll will continue to support the Board of Trade in its efforts to advertise the area and bring business into the Town.

Respectfully,
MARY R. YOUNG,
Secretary

Civil Defense

To the Citizens of the Town of Carroll:

We would like to submit our report on the past year of your local Civil Defense organization. The mission of the local organization is:

1. To safeguard life and property in the community.
2. To minimize loss and damage from enemy attack, sabotage or natural disaster.
3. To prepare plans to assist other communities by mutual aid agreements.
4. To care for refugees from other areas.

Last May, we had a meeting with Mr. Broadhurst of Concord, and he lined up the following courses for the town: a Radiological Course, a Police Auxiliary Course and a Home Welfare & Refugee Unit.

Twenty-four people completed the Radiological Course in October, and all are qualified to detect radiological fallout. By so many completing the course, it enabled us to secure the instruments necessary to detect fallout at no cost to the town. The other two courses will be made available to us in the near future.

Twenty-two people completed the Standard First Aid course last Spring. Two people are now attending the Advanced First Aid Course.

Two trips to Concord were made by the Civil Defense officers to attend statewide meetings in regards to fall-out shelters and emergency rations being made available by the Government. We have many informative pamphlets and booklets on hand, which are available to all who are interested in them. We will have them all at the Town Hall on Town Meeting day.

We have the following items on hand that were purchased through Civil Defense:

Item	Value	Cost to town
Fire-fighting Pumper Truck	\$7,280.00	\$50.00
Pipe chain wrech	8.60	.40
Two spotlights	13.00	.80
Accessory Nozzle	43.30	3.50
3 Radiological Survey Meters		N. C.
1 CD V-700		N. C.
1 CD V-710		N. C.
1 CD V-720		N. C.

2 Radiological Dosimeters	N. C.
1 Radiological Dosimeter Charger	N. C.
2 Gas Masks	N. C.

We are grateful for the interest shown the Civil Defense Program by the citizens of Carroll.

DORIS SNITKO, Deputy Director
MARY MONAHAN, Director
HAROLD GARNEAU, Asst. Director

School Warrant

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the School District in the Town of
Carroll qualified to vote in District Affairs:

You are hereby notified to meet at the Town Hall in said District on the thirteenth day of March, 1962 at 10:00 o'clock in the forenoon to act upon the following subjects:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Treasurer for the ensuing year.
4. To choose a Member of the School Board for the ensuing three years.
5. To hear the reports of Agents, Auditors, Committees, or Officers heretofore chosen, and pass any vote relating thereto.
6. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
7. To see if the School District will vote to continue sending high school students to Whitefield High School under conditions prevailing during the school year 1961-1962.
8. To see if the Carroll School District will vote to allow High School students to attend the school of their choice and the School District will pay their tuition according to the State Average.
9. To see if the Carroll School District will vote to authorize the School Board with a committee of three to be appointed by the moderator to work with other School Boards in the area to evaluate the desirability of a Cooperative High School.
10. To see what sum of money the district will raise and appropriate for the support of schools, for salaries of school district officials and agents and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the School Board to certify to the selectmen the balance between estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

Given under our hands at said Carroll this seventeenth day of January, 1962.

VIRGINIA M. MORNEAU, Chairman
JOHN F. WRIGHT
CHARLES RICARDI

School Board Report

To the Citizens of the Town of Carroll:

The annual report of the School Board of the School District of Carroll is duly submitted.

As in the past we have tried to keep our repairs to a minimum. The hallway going into the gymnasium was painted. The wire fence was erected in front of the school building which is a big improvement. The swings and teeter boards were moved to the rear of the building where there was more room. Also, the furnace had a complete repair job.

The Board is very sorry to report to the citizens of Carroll the resignation of Mr. Harold A. Truell, Superintendent of Schools, who has been instrumental in making many improvements in the Program of Studies and the school plant. His ever ready cooperation and tireless effort given the Carroll School District is much appreciated. Also the resignation of Miss Catherine Noonan, Teacher Consultant, with whom the town owes a debt of gratitude in making our school one which measures up to the highest standards. To fill the two vacancies created by these resignations will be difficult indeed. The Board pledges to strive to help fill these vacancies with the best possible personnel.

The transfer of the high school students to the Whitefield High School was accomplished successfully. Authorities from Littleton and Whitefield cooperated most cordially in the transfer. The Carroll students are participating fully in the various activities of the Whitefield High School and are doing well academically.

In conclusion, your School Board wishes to thank the teachers and administrative staffs for its continued cooperation and loyalty during the past year.

A cordial invitation is extended to parents and townspeople alike to visit the school at any time.

Respectfully submitted,
VIRGINIA M. MORNEAU, Chairman
JOHN F. WRIGHT
CHARLES RICARDI
Members of Carroll School Board

Superintendent's Report

To the School Board of the Town of Carroll:

My ninth annual report as Superintendent of Schools in the Town of Carroll is submitted:

Supervisory Union No. 31

Supervisory Union No. 31 is composed of the towns of Carroll, Lancaster and Whitefield. The duties of the Union, as a whole, are to select the superintendent of schools, special teachers, supervisors, and the Union secretary. The school nurse is engaged separately by the individual towns. The superintendent's salary for the school year 1960-1961 was apportioned as follows: Carroll 4.9%, Lancaster 30.1%, Whitefield 16.5%, and the State share 48.5%. The salary of the Teacher Consultant, secretary, and office expenses of the Union for the school year 1960-1961 were apportioned as follows: Carroll 9.5%, Lancaster 58.5%, and Whitefield 32%. These percentages are based on two factors having equal weight as follows: (1) Average Daily Membership of the District and (2) District Valuations (adjusted). The following chart might be of interest to show you how percentages are derived:

Equalized Valuations

Carroll	\$2,703,412.00
Lancaster	9,650,990.00
Whitefield	5,740,283.00
	<hr/>
	\$18,094,685.00

Average Daily Membership of Districts

	Elem.	High	Total
Carroll	56.0	0.0	56.0
Lancaster	590.2	212.6	802.8
Whitefield	290.4	117.7	408.1
	<hr/>	<hr/>	<hr/>
	936.6	330.3	1,266.9

District Percentages of Costs

	Valuation %	A.D.M. %	Average %
Carroll	15	4	9.5
Lancaster	53	64	58.5
Whitefield	32	32	32.0
	<hr/>	<hr/>	<hr/>
	100%	100%	100.0%

The basis for the apportionment shall be one-half on the average membership for the previous school year and one-half on the last adjusted valuation of the District as determined by the State Tax Commission every odd numbered year.

It was with regret that we lost Miss Catherine L. Noonan, Teacher Consultant, who resigned her position, effective January 15, 1962. Miss Noonan came to us July 1960. During her stay here much was accomplished under her guidance. Her leadership among the teachers will be greatly missed.

School Personnel

Mrs. Lucy L. Bond was employed to teach grades I and II; Mrs. Eileen M. Worsley, Grades III-V; and Mrs. Mary R. Young, Grades VI-VIII and Principal. Mrs. Clara E. Hall, graduate of New England Conservatory of Music was employed as Music Supervisor.

High School

At the last School District meeting held in March 1961, the Carroll School District voted to authorize the School Board to send high school students to Whitefield High School. The tuition for the school year 1961-1962 at the Whitefield High School is \$360.00. If the same pupils were going to the Littleton High School the cost would have been \$425.00 per pupil. During the 1962-1963 school year the cost for tuition at Whitefield High School will be \$375.00. The Littleton High School tuition will be \$478.00 per pupil. This means that if the Carroll students continue to attend the Whitefield High School there will be a saving of \$103.00 per student. State average tuition for school year 1962-1963 will be \$457.00.

Enrollment

The following census table will show, to some degree, what the elementary attendance for the Twin Mountain School will be for the next five years in the first grade. Whereas, we may expect a more or less constant enrollment in our primary grades, we must be cognizant of the fact that the high school enrollment varies constantly. However, during the past several years more students have been attending high school. This is an excellent trend as a high school education today is as important as an elementary education was twenty or thirty years ago. Practically no responsible position of any kind can be obtained today without at least twelve years of schooling.

**Anticipated Future Enrollment in Grade I
According to Census Reports
Five Year Summary**

Anticipated Enrollment Year	Year Census was taken (September)				
	1957	1958	1959	1960	1961
1961	8	10	8	5	
1962	4	5	5	3	10
1963	5*	4	6	4	5
1964		4*	6	6	6
1965			7*	8	10
1966				6*	3
1967					5*

* This figure includes only children born before September 1 of that calendar year as the census is taken at that time.

Handicapped Children

By law handicapped children, who are unable to attend school, have the privilege of being taught at home for a period of not less than two hours per week. There could be a greater demand for this service than we now anticipate. Referring to the budget of 1962-1963, it would be noted that the sum of \$300 has been requested for this purpose.

According to law it has been the responsibility of a school district to pay the tuition for its Foster Children and State Wards wherever they may be attending school. This law was repealed at the last session of the General Court. However, the New Hampshire District Attorney has recently ruled that all Handicapped Children are entitled to transportation to and from the school they attend, within or without the school district in which they reside.

If you have a child who is handicapped and cannot attend school, feel free to contact the office of the Superintendent of Schools as he may be in a position to give assistance.

Insurance

Your School Board, in conjunction with the Lancaster and Whitefield School Boards, once again offered to all pupils in their towns the opportunity of participating in a Special School Child Accident Policy for \$2.00 per pupil. This year it was possible for a student to obtain additional year-around coverage at a cost of \$10.00 per year. This is the ninth year that the pupils attending the Carroll School have had this opportunity. Previous to this time the expense of an accident was borne directly by the parent. This policy became effective September 15, 1961 and will continue until September 15, 1962. Twenty-six out of thirty-eight pupils and teachers

took advantage of this opportunity. This shows that approximately sixty-six and two-thirds percent of the entire student body participated in this project.

School Milk Program

At the present time the Milk Program, which was begun during the school year 1957-1958, is still being continued. Pupils are permitted to purchase milk in one-half pint bottles at a cost of three cents each. As the cost of milk is six cents per bottle, the Federal Government pays the other three cents. This program permits all pupils to enjoy the opportunity of purchasing milk at a very reasonable cost. During the school year 1960-1961, there were 4,829 bottles of milk purchased by the pupils at the Twin Mountain School. It is hoped that all pupils will participate in this program.

Progress Report

The following report was submitted to the School Board members of Supervisory Union, No. 31, at its regular meeting held December 4, 1961, by your Superintendent of Schools:

After spending nearly nine years as your Superintendent of Schools, it is my desire at this time to bring to you a record of the achievements of these years. I feel that it is only proper that such a review be made at a time when you are contemplating action which will affect what is to be done in your school system during the coming year.

The following is an excerpt from one of my reports which was made to the school board in 1954-1955. "The inadequacies of your school plant and equipment continues to be a critical and baffling problem in the attempt to administer an adequate educational program. Obsolete equipment, including desks, chairs, laboratory equipment, typewriters, shop and homemaking tools and other equipment, have been deteriorating for years and have now reached the point where replacements are imperative. The alternative is bound to be a reduction in the standards of instruction. Facing increased enrollments in the immediate future, the problem of providing adequate space and adequate equipment must be faced and solved eventually." This quotation was appropos at the time to the school system in each of your three districts.

Tonight I would like to discuss the overall school educational program in four phases:

1. Financial Status of District
2. School Plant Facilities and Equipment
3. Present Educational Opportunities
4. What of the Future?

Present Financial Status

The financial condition of the School Districts in former years has not always been stable. When the present Superintendent of Schools was a candidate for the superintendency in this area, the financial condition of the School Districts at that time was not made known to him. Perhaps if it had been, there might be a different Superintendent of Schools here tonight.

Upon taking up his duties in this Union in 1953, the present Superintendent found that the School District of Lancaster was approximately \$25,000 in the red, the School District of Whitefield approximately \$10,000 in the red, and the School District of Carroll approximately \$1200 in the red. The Supervisory Union was approximately \$600 in the red. How the Districts became lax enough to permit such deficits to accumulate is not our topic tonight. Our concern is to review the accomplishments of the past eight years in the three School Districts.

At the present time we are able to report that no School District, including Supervisory Union No. 31, has a deficit hanging over its head with the exception of legal contractual obligations as voted by the School Districts. In order to accomplish this feat, it has been necessary for us to curtail certain planned programs in order that these accomplishments could be made without upsetting the financial status of the towns, including the tax rate which we feel should not fluctuate year by year to any great extent.

School Plant Facilities and Equipment

I ask those of you who were members of a school board at the time of my appointment to the superintendency to visualize the conditions of the school plant and facilities in your school district in 1953. In the town of Carroll, a complete paint job, putting in new lighting in each of the classrooms and laying asphalt tile floors seemed to be most needed at that time. The High School was closed by vote of the school district, thereby, eliminating many improvements which were in their infancy when the action was taken. The present Carroll School Building is in excellent condition and should be of tremendous value to the school district and the community for many years to come.

In 1953, the condition of the Lancaster High School Building was extremely poor. Seats which were used in the old educational program were present in the classrooms. Need for paints, plumbing, new floors, heating, electrical, and water repairs along with many other deficiencies were prev-

alent. A modern elementary school building had recently been built, but the classrooms had no bulletin boards or other equipment which is so necessary to do an adequate job in an elementary school. Your Superintendent of Schools immediately formulated a six to eight year maintenance-repair program to restore the entire school plant to accepted standards.

For three years the maintenance program in Lancaster proceeded without interruption, then little by little other things began to take precedence. A new roof was needed on the newly constructed elementary building. The Board was able to take care of the \$15,000 cost without going back to the town for special appropriations. Outside pressures, perhaps political in nature, caused further setbacks in the original plans of improvement. Even though we now have a new fire escape, a new sprinkler system, a new freezer, all rooms and halls painted with the exception of the stairwell at each end of the elementary school building, and asphalt tile floors in several of the High School classrooms, there is still much to be done. Lancaster does have an exceptional language laboratory, audio-visual aids, science equipment, shop equipment, and mathematics equipment. Yet even in the equipment of the school plant, there is much to be desired.

Some people might feel that all the money should be voted at once and all things should be done immediately. In my opinion, no School Board, no Superintendent of Schools, should squander or spend taxpayers' money in any other way than through sound financial procedures. Our school budget is no different than our home budget; when we do not have the money to purchase a certain item, we borrow from another item of the budget. In school matters we follow the same procedure or go without until another budget is voted by the district. A well-established maintenance program permits constant improvements, along with greater efficiency, and at the same time keeps the tax rate more or less stable.

In 1953 the school plant in Whitefield was in no better condition than the other two districts. The School Board realized its problems and wanted something done about them. Financially, the town of Whitefield is no better off than the other two towns. The income of the average citizen is relatively small. This is evident within the school based on the number of free lunches given daily to needy children under the Federal School Lunch Program. Since 1953, your Superintendent of Schools has had free access to spend the money appropriated at Whitefield without any strings at-

tached, provided that at no time did he extend credit beyond the established appropriation. Again, a definite maintenance program for improving the school plant and its facilities was initiated. Today, we can say that the Whitefield School plant and facilities are excellent. Heating costs are at a minimum, the demand load for use of electricity has dropped between four and five units and yet the students have a minimum of 30 foot candles of light on every desk and 50 foot candles of light in the auditorium. All classrooms and corridors including the gymnasium have been completely painted and all classrooms have had new asphalt tile floors. The language laboratory equipment is exceptional, audio-visual aids (upon completion of present orders which are now in the making) are excellent. Science equipment, home economics equipment, shop equipment, and commercial equipment meet highest standards. Modern desks and chairs for pupils are present in all classrooms, equipment and supplies are not lacking in any field. However, we must not forget that there will always be a need for constant improvement in both plant facilities and classroom equipment.

The Whitefield School Board wrote in one of its reports that, "The Board anticipates that by the end of 1960 summer, all classrooms in the Whitefield School building will have been completely painted, have asphalt tile floors, and new fluorescent lighting, making them more cheery and pleasant for the pupils. Modern desks and chairs will have been purchased for all classrooms." Even with the obstacles present, we are proud to say that we have exceeded these expectations even though we are one year behind schedule. Whitefield may be proud of its school plant and facilities. No school has better.

Present Educational Opportunities

Many new educational opportunities are now present for the pupils of the three School Districts; many educational opportunities have been created during the last eight years.

We are now offering a four to six year course in modern foreign languages with the use of the language laboratory. The laboratory offers many advantages to the group or individual which enables the student to progress as rapidly as his ability permits. French has now been introduced in Grade 7. At the present time those considered able to study French are given an opportunity. If the language is not offered to a child in Grade 7 or 8 he still may take French I in Grade 9 if he so desires. We now have the approval of the State Board of Education to offer a French seminar to students in Grade 12 for a one-year credit.

We have science equipment for biology, chemistry and physics which is equal to the equipment found in the best high schools in the State. The content of the science courses in Grades Seven and Eight now includes all general science previously taught in Grades 7, 8 and 9. Biology is offered for one or two years depending upon the desire of the student, along with chemistry, physics, and advanced science. Team teaching was utilized in science at the sixth grade level and was tremendously successful. Unfortunately, overcrowded classrooms and lack of extra rooms are a deterrent to a widespread use of the team method.

Mathematics courses at the high school level are advanced to such an extent that it will be difficult to replace present teachers when and if the need arises. By January 1962 a Mathematics Guide covering kindergarten through Twelfth Grade in High School will be completed and in use by all teachers. Many of our present teachers devoted their time and efforts during the past year and a half to the development of the Guide. It is couched in the terms of modern mathematics and will no doubt prove challenging to every teacher who uses it. Algebra has been introduced in Grade 7 and we are teaching second year algebra via the machine method. This aid permits an individual student to proceed according to his capabilities.

The reading program which your Superintendent of Schools developed while acting in this capacity in the Commonwealth of Massachusetts was introduced with excellent results. Eight years ago in Lancaster, less than 25 of the 64 children promoted from Grade 6 to Grade 7 could read a sixth grade book. Today it is important to note that nearly every child promoted to Grade 7 can read on or above a sixth grade level. Children in the first six grades read more than 50 books a year in class plus their basal reading books. This year the Science Research Associates Reading Program was introduced at the junior high level. Under this program, each student improves his reading according to his own interest and ability.

In the Lancaster Elementary School in 1953, there was a special class for the slow learner with an enrollment of eight or nine pupils. In the best interests of all concerned, this class was dissolved and the teacher put in charge of a complete new reading program for special pupils enrolled in Grades I to III. This change in program permitted the teacher to give special help to about sixty children per day. This has been considered under the classification of special remedial reading classes. In 1953, emphasis was being plac-

ed to a large degree upon the slow learner. Since 1960, the emphasis in education has been placed on the gifted learner. This year, after careful consideration of the new studies and research, it was decided that the special class teacher would divide her time between slower learners and children with superior reading ability.

We have introduced a program called Controlled Reading and have purchased equipment to promote this phase of the reading program. Previous to the school year 1961-1962, controlled reading was mainly used for those who found reading difficult. After investigating studies done at the University of Vermont on the use of the controlled reader, we now offer this type of reading only to students who have demonstrated superior ability in reading. The program has been in effect for three months and all concerned feel that it is more valuable. Plans are being made to offer controlled reading to seniors in high school who will be attending college. Controlled reading will speed the reading rate of the fast learner 30 to 60 per cent. If a student is reading at the rate of 400 words per minute, this training will increase his reading speed to a probable 600 words per minute or above.

The over-all education program in our schools is very modern; the present day modern procedures and practices enable each child, gifted or otherwise, to achieve according to his interest and capabilities. Each one of you has a right to be proud of the educational opportunities your children now have.

What of The Future?

Not being one who relishes in the prediction of the future, it is with extreme caution that your Superintendent of Schools approaches this last phase of the report. Unknown circumstances may alter well-laid plans on a moment's notice. However, there are certain needs which are obvious to one who has spent many years in education.

With renovations of the present High School building for elementary school purposes, the elementary plant and facilities in Lancaster should be adequate for many years to come. It is our belief that any money spent on the Lancaster High School building for high school purposes is money wasted. The Superintendent of Schools considers it a fire trap even though a new fire escape has been added. If one stands in the auditorium when the students are passing between classes, one is able to feel the building oscillate. Your Superintendent suggests that the top floor be removed from this building and the first two floors become part of

the Elementary School. The enrollment in each of the first six grades is such that there should be one more teacher for each grade level besides those now employed. This would reduce the class enrollment to about twenty-five pupils, which is ideal for good teaching. There is a need for at least six new elementary classrooms. Extra classrooms in the proposed arrangement could be used for art, music, or other educational purposes.

No school should be without an auditorium. Boys and girls should get together often to feel the strength of being in a group. The auditorium offers teachers and students an opportunity of expression through various types of educational programs and assemblies.

Whitefield building facilities are in excellent condition and the building is being used to capacity at this very moment. However, some rooms are over-crowded, there is a need for guidance program, a physical education program, an improved industrial arts program, a need for an art program and better facilities for the proper teaching of music. The needs are obvious. What can be done about them is the question that must be pondered by each one of you as the New Hampshire State Board of Education establishes new minimum requirements for comprehensive high schools within the State. A greater burden is being imposed on each and every small high school if it wishes to meet the new qualifications. No doubt Lancaster and Whitefield would not want to be considered anything but a comprehensive high school because such schools are considered the best in the State. To us, there seems to be only one logical solution and that is the establishment of a cooperative school which would include the towns of Lancaster, Whitefield, Twin Mountain, Dalton and Jefferson.

Whether or not a cooperative school is built, the educational costs are going to continue to rise. With a cooperative school, it is obvious that more may be obtained for each dollar spent.

Under the new standard to be established by the State in September, 1963, a part-time, fully qualified librarian will be needed in each of our high schools. This will cost around \$5000 per school. Under the cooperative set-up, one librarian would be sufficient under projected enrollments.

There is need for citizens and board members to discuss the reality of a good comprehensive high school in this area. Many of the citizens in this area realize the need is great, **but many more** are not aware of the changes in standards now being considered by the State Board of Education. It

is the desire of your present Superintendent of Schools that careful consideration be given to the establishment of a co-operative, comprehensive high school in order that our pupils may have educational opportunities equal to those of other high school pupils in the State of New Hampshire.

I have spent nine enjoyable years here as your Superintendent of Schools. The report which you have just heard culminates the efforts of many people, including teacher consultants, principals, teachers, and members of the school boards in Carroll, Lancaster and Whitefield. To all these people we owe a debt of thanks for the many hours spent in improving the educational opportunities afforded pupils in our school districts.

May we take this opportunity to express our appreciation to the Twin Mountain Parent-Teacher Association for their continued cooperation and help in promoting special activities at the Twin Mountain School. The purpose of this organization is to bring the home and the school in a closer relationship.

Up to this present writing your School Board has been unable to obtain a regular School Nurse for the school year 1961-1962. May we express our appreciation to Dr. William W. Wilson, School Physician, for his cooperation and service given during this past year. Mrs. Alice McGee assisted this year in giving physical examinations to the pupils.

May we express our sincere appreciation to the members of the Twin Mountain School Faculty for the fine cooperative spirit which has been demonstrated throughout the school year toward the continued improvement of the school program for the betterment of the pupils. They are ever ready to give help and assistance to pupils and parents alike when ever such assistance is requested. They are continually supervising the welfare of all pupils attending school.

Our thanks also go to Mr. Edward Jordan, School Custodian, for the excellent work which he is doing. He has been extremely cooperative at all times. A clean, wholesome school building is greatly appreciated by teachers and pupils alike.

Our thanks go to Mrs. Margaret Rines and Mr. Michel Perry, school bus drivers, for their fine work and interest in getting the bus pupils to school safely.

The cooperation of the school personnel, including the School Board, makes for better public relations as well as increasing the efficiency of the school staff. The Carroll School Board endeavors to give to the citizens of the town of Carroll the best educational opportunities possible for its

children. Our sincere appreciation goes to all of its members for maintaining such a fine atmosphere in which to work.

We suggest to the citizens of the town that they make an effort to visit the Carroll school as often as possible.

Respectfully submitted,
HAROLD A. TRUELL,
Superintendent of Schools

Helping Teacher's Report

Mr. Harold A. Truell
Superintendent of Schools
Twin Mountain, New Hampshire

Dear Mr. Truell:

It is with pleasure that I submit this report to you on the work that is being carried on in the Twin Mountain School.

Teachers attended an art workshop held in Lancaster during the second week of school. Many new ideas and techniques were presented by the consultant. As a result of the workshop, school children in Twin Mountain now have better opportunities to express themselves through creative media. At least one period each week, the children are scheduled to work with art materials.

The reading program carried on in all grades continues to insure excellent instruction in basic skills. The children read in the vicinity of one hundred books a year, exclusive of textbooks.

Spelling has received particular emphasis in the program this year. Workbooks are used regularly, children keep records of word misspelled on all written work and are tested frequently on difficult words. In many classes, spelling and phonics are correlated. Important words encountered in science and social studies are added to basic lists for further study.

We continue to put strong emphasis on penmanship. Each class has a penmanship lesson each day and all written work is held to a high standard. Language workbooks are used for basic work in English, and all work in English is considered as foundation for clear expression in written and oral work.

In all grades, new materials have been made available in arithmetic. First and second grades are working with the Cuisenaire materials and are very enthusiastic. Cuisenaire is a system that utilizes small blocks of wood of specified lengths to help children see and understand the structure of mathematics along with varied visual aids. The children of Twin Mountain have benefited immeasurably from the new techniques and materials now being employed.

Parents are invited to attend classes whenever possible to see the new techniques and materials being used, and to observe the work done by the children.

Sincere thanks and appreciation to the people whose combined efforts serve to insure the high standards of the Twin Mountain School.

Respectfully submitted,
CATHERINE L. NOONAN,
Teacher Consultant

Principal's Report

December 15, 1961

To the Citizens of the Town of Carroll:

The report on the program and activities of the Twin Mountain School is herewith submitted.

We were fortunate in having both Mrs. Eileen Worsley and Mrs. Lucy Bond return this year, Mrs. Worsley to teach Grades Three, Four and Five, and Mrs. Bond, Grades One and Two. However, we were all very sorry when Mrs. Worsley found it necessary to ask for a leave of absence due to ill health. Mrs. Claramond Morrill of Lancaster was employed to substitute until her return. Mrs. Clara Hall, a graduate of the New England Conservatory of Music, has charge of the music department. Besides the regular music program, she is teaching the Elementary Grades the fundamentals of playing the flutophone.

All of the teachers have completed extension courses, either through the University of New Hampshire or Plymouth Teachers College. Since so much stress is being put on the new approach to mathematics, these courses have been beneficial to the teachers in the newer methods being used. The latest in equipment and textbooks have been provided by our School Board. Supplementary material in Science and New Hampshire History is provided by the State Department through television programs once a week. These programs have been most worthwhile.

A very comprehensive Art Workshop was held in the fall in Lancaster. Many valuable ideas and suggestions were gained through attendance at these classes. Certificates were presented to the teachers upon completion of the course.

Besides the new textbooks made available to the School, our School Board has also provided new reading books for our library. The State Bookmobile makes periodic visits to the School, and its services are very much appreciated.

On Memorial Day, although not a regular school day, the children joined with the American Legion in their exercises. They decorated the graves with wreaths, and they presented a Memorial Day Program at School the previous day.

The annual Halloween Party was one of the usual highlights of the year. Many guests were in attendance. Prizes were won by Patrick McGee, Kendall Asker and Bruce Johnson. Mr. Richard Tapply, National Recreation Association, visited us for one of our Family Nights. It was a tremendous success. He will visit us again on January 19.

Milk is again being purchased through the Lotta Rock Dairy in Littleton, in cooperation with the State Department with almost 100% participation.

Physicals were done during the month of November by Dr. William Wilson, school physician. He was assisted by Mrs. Alice McGee and Miss Eleanor Kenney.

Through the efforts of our Parents-Teachers' Association a very successful Dental Clinic was held in the fall. Each Thursday the children were taken to Dr. Enderson's office in Littleton for treatment. The following work was accomplished: 27 cleanings, 23 fillings, 14 extractions, 2 X-rays and 4 root tips removed. It is hoped that this Clinic can be continued each year.

A Physical Fitness Program, as recommended by President Kennedy, is being carried out in all the grades. This is in addition to our softball, volleyball and basketball program. Special records have been purchased to aid in the presentation of the program.

The Coin Club and the Stamp Club will meet on alternating Fridays after Christmas. The older children have enjoyed a project in ceramics, while other art projects were enjoyed by the other grades. Plans are being made now for the Ski Program, a vital part of our physical education program.

Our children participated in the Square Dance Festival in Lancaster with all eight grades taking part. Instructions were given by Mr. and Mrs. Ayling of Jefferson, assisted by Mr. Herbert Warren of Fairlee, Vermont.

Plans are under way for our annual Christmas Program with all children participating. The Primary Grades will present "The Toys Play", the Elementary Grades, "King Christmas" and Grades Six, Seven and Eight, "Christmas Shopping Early." The Rhythm Band and the Flutophoners will also participate in the program.

Our Graduation last year was one of the nicest we have ever had, comparable to most high school graduations. Besides the exercises themselves, a banquet was held at the Mary Elizabeth Inn in Lancaster with parents and members of the School Board in attendance.

We feel that we have had a very successful year academically and socially. However, we realize that all this would not have been possible without the loyal support of the parents, friends, the School Board, the Parent-Teachers' Association and all others who have contributed in any way to help us. We wish to thank you all. Our special thanks goes

also to Mr. Truell, Miss Noonan, Mrs. Smith, Mrs. Lemieux,
Mr. Jordan, Mrs. McGee and Miss Kenney.

We hope that you will visit us at any time.

Respectfully submitted,
MARY R. YOUNG,
Principal

Report of Supervisor of Music

Mr. Harold A. Truell
Superintendent of Schools
Twin Mountain, New Hampshire

Dear Mr. Truell:

It is with pleasure that I submit this report to you on the work that is being carried on in the Twin Mountain School.

The five point program of Singing, Playing, Creating, Listening, and Dancing is being carried out with satisfying results in each grade.

Rote songs and singing games are used in the first and second grades with much stress given to rhythmic drill such as clapping, marching, skipping, and galloping.

Rhythm band instruments are also introduced in the first and second grades. The rhythm band is helpful in two ways! It gives a good rhythmic foundation to music study; it gives much enjoyment to the young musician.

In the third, fourth, and fifth grades, we are introducing the syllable reading and two part singing.

In these three grades for the first time, we are introducing the flutophone. The flutophone is helpful in the following ways: it teaches the child to read music; rhythm is involved, the fundamentals of the fingering are based on the idea of the clarinet.

The sixth, seventh and eighth grades are able to have singing, music theory, and music appreciation.

Parents and friends of the school are cordially invited to visit the many classes and activities at any time.

To the teachers, I extend my thanks for their fine cooperation, sustained interest, and excellent results which they have made possible.

Respectfully submitted,
CLARA E. HALL,
Supervisor of Music

SCHOOL CALENDAR 19621963

Term	Begins	Ends
Fall Term	September 5, 1962	December 21, 1962
